This document describes how to use CVS Report as a standalone application and as a plugin for IntelliJ IDEA, Borland JBuilder, Eclipse, NetBeans.

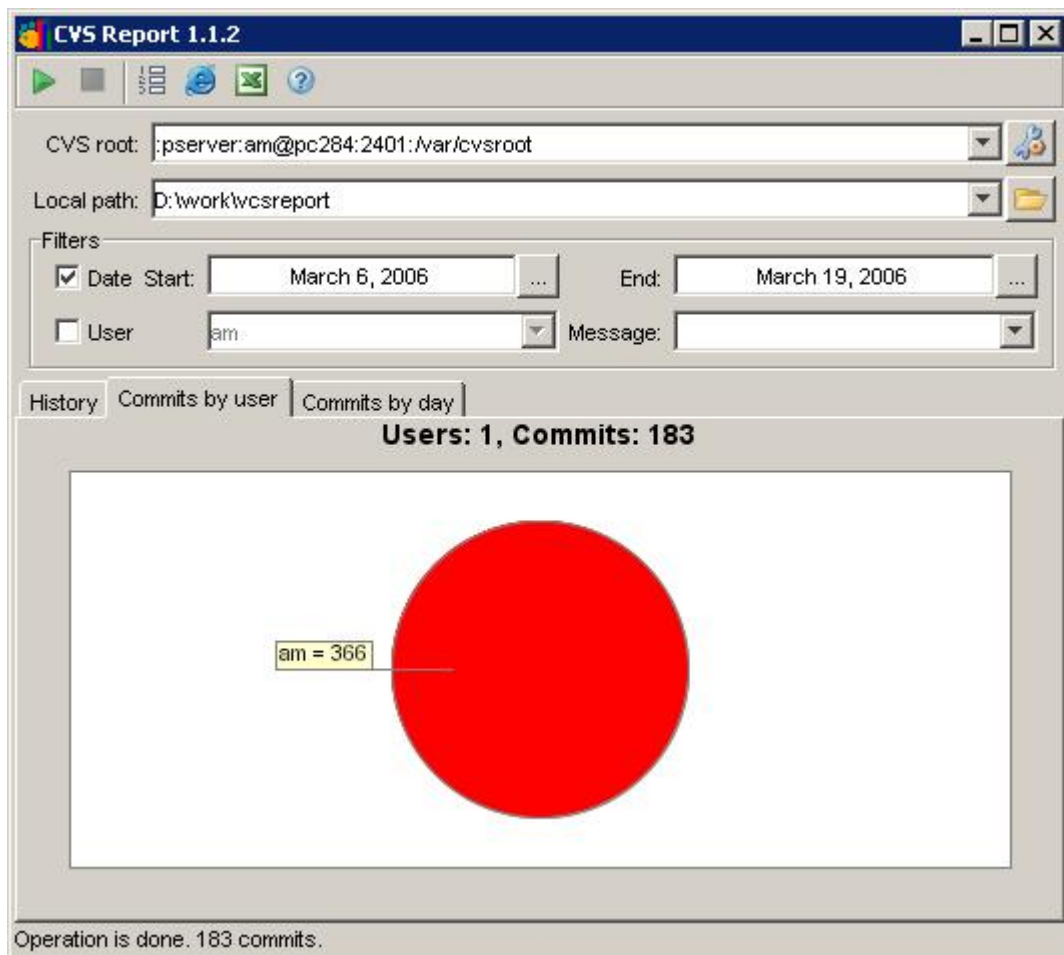

# 1. CVS Report

CVS Report generates statistical reports from the CVS (Concurrent Versioning System) repository, supports *pserver* and *local* methods.

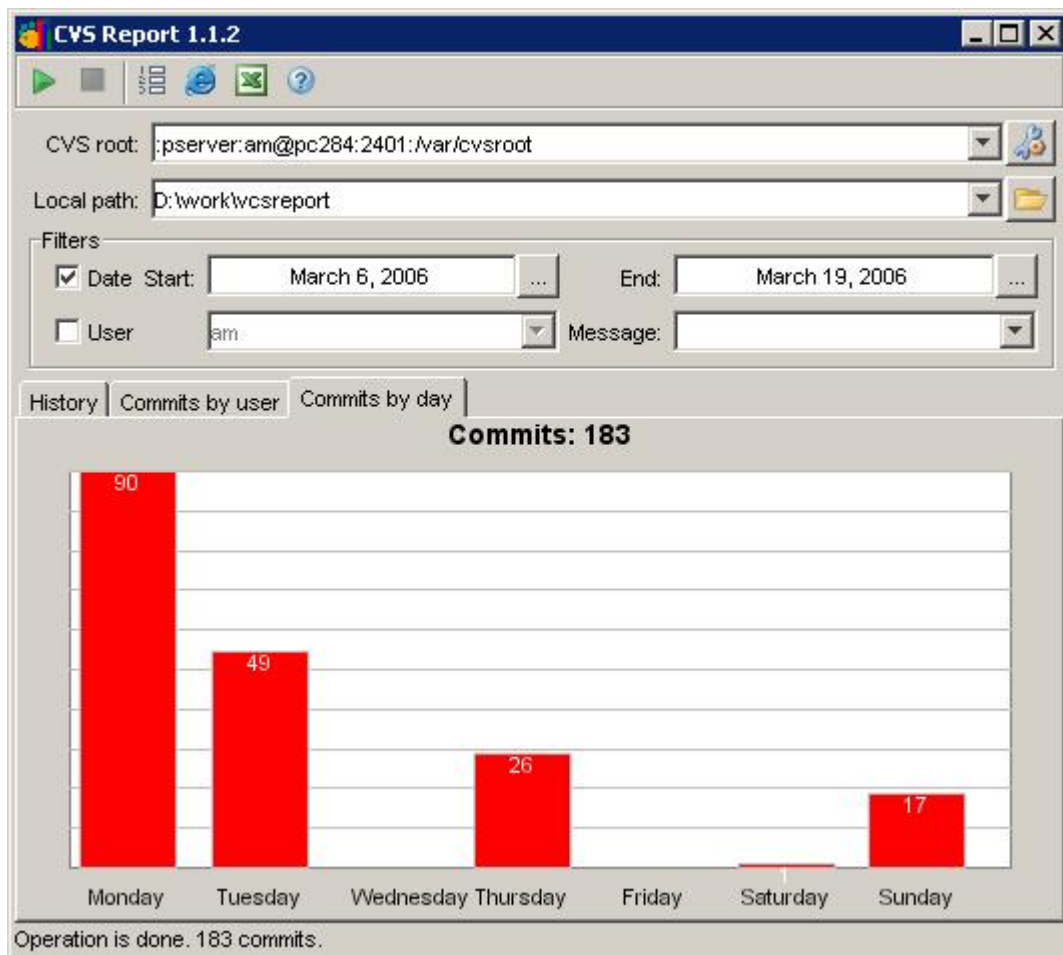

## 1.1. Main Screen (History table)

## 1.2. Main Screen ("Commits by user" chart)

1.3. Main Screen (“Commits by day” chart)

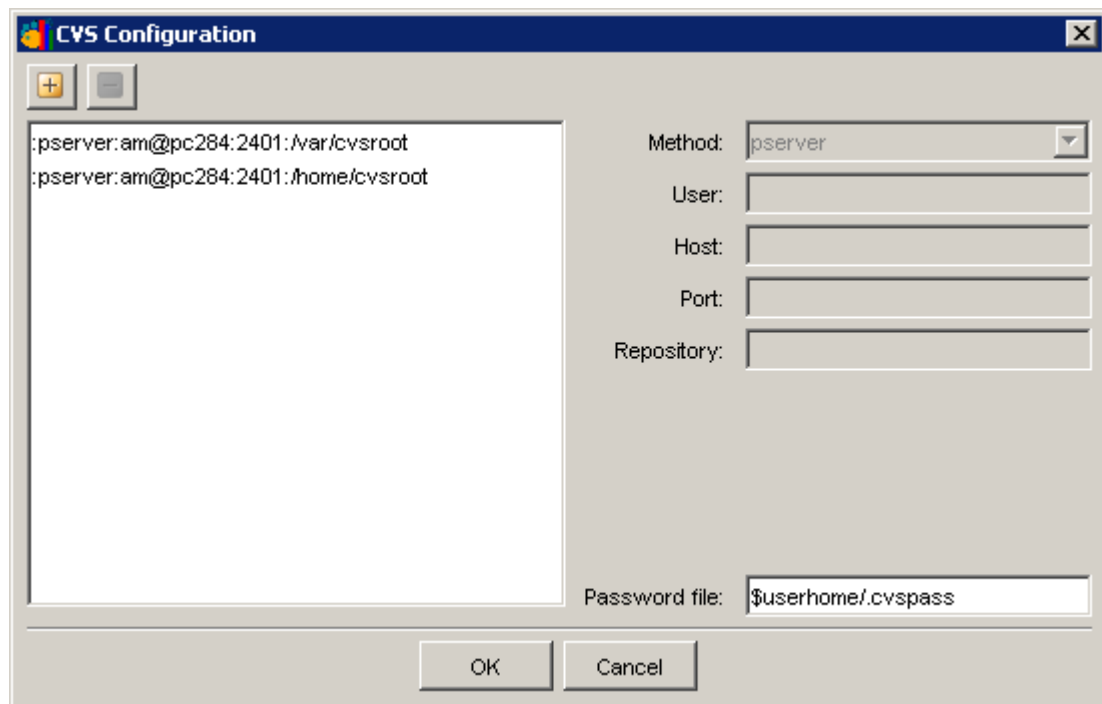

1.4. Toolbar. There are buttons to control CVS Report.

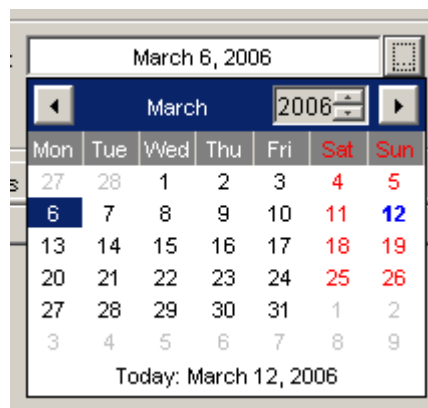

-  Get report - starts the history command
-  Stop report - stops the history command
-  Clear report table – clears the history table
-  Export report to HTML file – exports the report to the HTML file
-  Export report to CSV file – exports the report to the CSV (Comma Separated Values) file
-  About – shows “CVS Report About” dialog

1.5. CVS Configuration dialog

1.6. Calendar. Helps to select the start and the end dates.

## 2. CVS Report for IntelliJ IDEA

<http://www.jetbrains.com/idea>

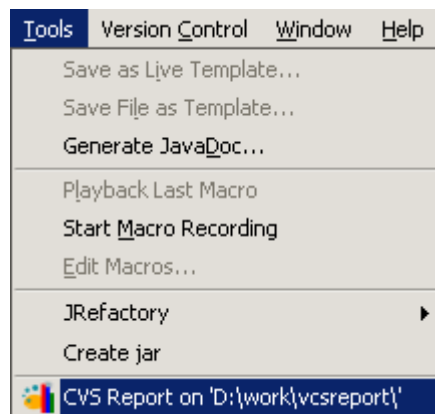

### 2.1. Installation

1. Close IDEA
2. Unpack files from CVSReportIDEA-bin-`{VERSION}`.zip to IDEA plugins folder
3. Run IDEA

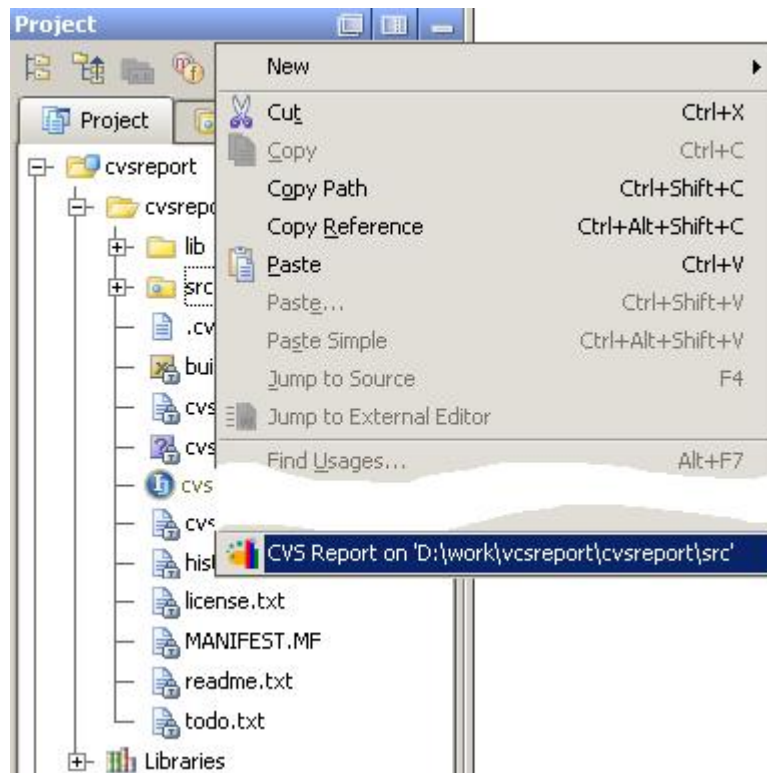

### 2.2. IDEA ToolBar

### 2.3. IDEA Main Menu

### 2.4. IDEA Project Menu

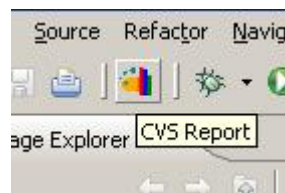

# 3. CVS Report for Eclipse

<http://www.eclipse.org>

## 3.1. Installation

1. Close Eclipse
2. Unpack file org.vcsreport.cvsreport\_{VERSION}.jar from CVSReportEclipse-bin-{VERSION}.zip to {Eclipse}/plugins folder
1. Run Eclipse

## 3.2. Eclipse ToolBar

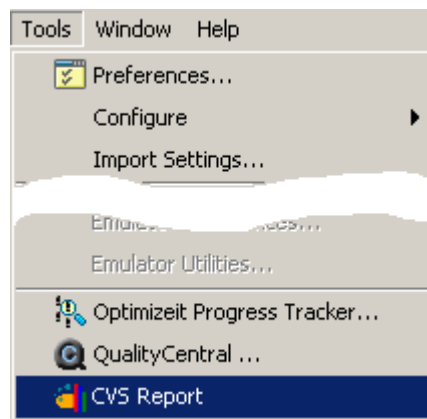

# 4. CVS Report for Borland JBuilder

<http://www.borland.com/jbuilder>

## 4.1. Installation

1. Close JBuilder
2. Unpack files from CVSReportJBuilder-bin-`{VERSION}`.zip to `{JBuilder}/lib/ext` folder
3. Run JBuilder

## 4.2. JBuilder Main Menu

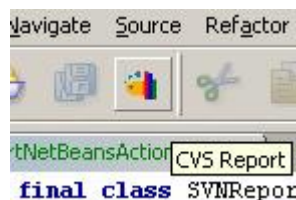

# 5. CVS Report for NetBeans

<http://www.netbeans.org>

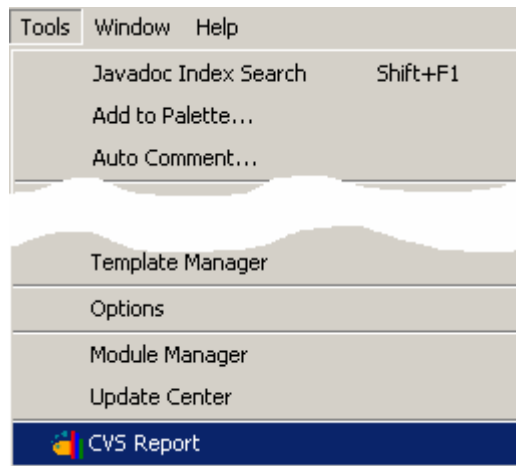

## 5.1. Installation

1. Go to Main Menu -> Tools -> Update Center
2. Select "Install Manually Downloaded Modules (nbm. Files)", press "Next"
3. Press "Add" and select the file "button org-vcsreport-cvsreport.nbm", press "Next"
4. Select the line "CVS Report for NetBeans" in the right list "Include in Install", press "Next"
5. Accept the license
6. Select the checkbox "Include" and press the button "Yes"
7. NetBeans will refresh Toolbar and Main Menu.

## 5.2. NetBeans ToolBar

## 5.3 NetBeans Main Menu
